## COVERAGE DETAILS

Premium 2000+™ is the first aftermarket warrantor to provide the comprehensive Aftertreatment Package detailed in this brochure.

Refrigeration Units for medium duty straight trucks with integrated self-contained units by certain Manufacturers may obtain coverage.

APUs eligible for coverage. Each of these components is necessary for the operation of your chosen business and each is an expensive repair if not operating properly.

## CUSTOMER MAINTENANCE RESPONSIBILITIES

You are required to maintain your truck as specified in the **Premium 2000 +™** Limited Warranty Agreement. Service intervals, as outlined, must be followed for covered and all related components. Services must be performed by a qualified, licensed service facility. **Receipts for all work completed will be requested in case of a filed claim.**

## TAXES & FLUIDS:

State and local taxes where applicable and fluids that are required to complete covered repairs.

## \$100 Deductible Per Claim

## Occurrence Repair

The Components Listed are the Only Parts that are Protected by this Warranty.

## TOWING

A towing reimbursement benefit is available in the event of a valid, warrantable, approved Premium 2000 +™ claim for all classes of commercial trucks. Ask Your Dealer For Details.

# PREMIUM 2000+™ IS THERE EVERY MILE OF YOUR JOURNEY

Working with authorized used truck dealers across the USA and Canada, Premium 2000+™ has become the largest point-of-sale independent warranty provider in North American. Our growth is based on several key factors:

- **Our focus is on reducing risk for truck owners.** We understand our truck dealer partners do a great job of inspecting and preparing the trucks they sale, but component failures can and do happen. When they do, a Premium contract protects the vehicle owner from the high cost of component replacement and vehicle repair.
- **We employ very knowledgeable technicians** who work on every claim with a bias to resolve issues quickly. Our record on claims payment is solid and our customers keep coming back when they change equipment.
- **We make working with Premium 2000+™ efficient and convenient.** We offer our 24/7 hotline to assist customers any time a breakdown occurs. Our technicians will work directly with the repair facility towards taking care of your claim quickly and fairly.

**In partnership with truck dealers across North America, we're keeping drivers on the road.**

"I just wanted to say thank you for the wonderful service Premium2000+™ has given me. When a mechanical problem happens during a critical delivery, you know frustration and panic. I experienced just that problem recently. Especially when you're thinking of the cost involved, which can be tremendous. As truckers know money is short today with the gas prices as they are. With my warranty with Premium 2000+™, my problem was solved in no time. I didn't have to worry about the money to pay for the repair. They handled everything in a very short time. I was back on the road with that critical delivery and made it on time."

**William T./Pennsylvania  
Truck Owner/Operator**

"I've been in the (used truck) business for a number of years and I become familiar with a number of different Warranty Programs ... from both the sales and the service side Premium 2000+™ is the best used truck warranty I have seen ... the warranty covers items that most other used truck warranties do not cover at all, i.e. failure due to wear out, Allison automatic transmissions to name a few. It is a very comprehensive warranty program and I have witnessed claim payments without hassle. I highly recommend the Premium 2000+™ coverage."

**Steven S./Michigan  
New and Used Truck Dealer**

## PLANS AND COVERAGES

Packages for Class 3-8  
Medium and Heavy Duty Trucks

### Engine Only

### Engine Transmission/Differential

Options for:  
Aftertreatment Assemblies, Turbocharger(s),
